Biography

Programs: A.A., B.S., Minor, and Research Certificate
Department of Biology
School of Arts and Sciences

The study of biology helps you prepare for careers in research, teaching, industry, government, medicine, medical technology, and several other health-related fields. More than half of all graduates earning a B.S. in biology from IPFW go on to graduate studies, either for advanced degrees or for professional certification.

Biology is among the most interdisciplinary of all sciences and requires a broad background in chemistry, physics, and mathematics, as well as biology. This background enables biologists to study the evolution of life; the manifestations of life from the level of viruses, bacteria, and individual cells to the structure and function of organisms; and the interactions of living organisms with each other and with their environments.

The Department of Biology has new facilities for its teaching and research programs, and its faculty represent many different fields within biology. Interested students can participate in research projects or in other forms of scholarly activity with individual faculty members (see Special Assignments in Biology under Options in Biology, below). An Associate of Arts with a concentration in biology is described under Arts and Sciences in Part 3 of this Bulletin. Two related programs leading to a B.S. are available: life science teaching certification and medical technology. These are described later in this part of the Bulletin. A minor in biology is also available.

B.S. WITH A MAJOR IN BIOLOGY

To earn a B.S. with a major in biology, you must fulfill the requirements of IPFW and of the School of Arts and Sciences (see Parts 3 and 7); earn a GPA of 2.30 or higher in BIOL 117, 119, 217, 218, 219, and 491 and in A/B-elective courses in biology (listed below); and complete the following courses:

</table>
Supporting Courses, below):
CHM 224 Introductory Quantitative Analysis
CHM 321 Analytical Chemistry I
School of Arts and Sciences Requirements
English Writing
ENG W233 Intermediate Expository Writing 3
(or other approved writing course)
Foreign Language
Requirements in Arts and Sciences Part B 8
Core and Concentration (Major) Courses
BIOL 117 Principles of Ecology and Evolution 4
BIOL 119 Principles of Structure and Function 4
BIOL 217 Intermediate Ecology 3
BIOL 218 Genetics and Molecular Biology 4
BIOL 219 Principles of Functional Biology 3
BIOL 491 Senior Biology Seminar 1
Supporting Courses
CHM 115–116 General Chemistry 8
One of the following: 4
CHM 224 Introductory Quantitative Analysis
CHM 321 Analytical Chemistry I
One of the following sequences: 8
CHM 254–255–256–258 Organic Chemistry and Lab
CHM 254–258–261–262 Organic Chemistry and Lab
One of the following: 3
CS 106 Introduction to Computers
CS 107 Introduction to Computers for
Science Majors
One of the following sequences: 9–16
MA 229 Calculus for the Managerial,
Social, and Biological Sciences I;
STAT 240 Statistical Methods for Biology; and
STAT 340 Elementary Statistical Methods II
(9 credits)
MA 229–230* Calculus for the Managerial, Social,
and Biological Sciences I–II;
STAT 240 Statistical Methods for Biology
or
STAT 511 Statistical Methods; and
STAT 340 Elementary Statistical Methods II
(12 credits)
MA 165–166* Analytic Geometry and Calculus I–II
(this sequence required for students pursuing a double major
in chemistry);
STAT 240 Statistical Methods for Biology
or
STAT 511 Statistical Methods; and
STAT 340 Elementary Statistical Methods II
(16 credits)
*Most graduate programs in biology require one year of calculus.
One of the following sequences: 8–10
PHYS 201–202 General Physics I–II (10 credits)
PHYS 220–221 General Physics (8 credits)
General Elective Courses 16
Those courses with a laboratory are indicated by an asterisk (*).
You must complete at least one course with a laboratory in each
group.
A-Electives (organismal, population, community, and ecosystem)
BIOL 335–336 Animal Behavior and Laboratory* 3–4
BIOL 345 Vertebrate Biology* 4
BIOL 434 Marine Community Ecology* 3
BIOL 445 Aquatic Biology* 3
BIOL 502 Conservation Biology 3
BIOL 505 Biology of Invertebrate Animals* 3
BIOL 543 Population Ecology* 4
BIOL 556–558 Physiology I and Laboratory* 3–5
BIOL 579 Fate of Chemicals in the Environment* 4
BIOL 580 Evolution 3
BIOL 582 Ecotoxicology 3
BIOL 586 Topics in Behavior and Ecology 3
BIOL 592 The Evolution of Behavior 3
BIOL 598 Biology of Fish* 4
ENTM 306–307 General Applied Entomology 3

and Laboratory*

B-Electives (molecular, cellular, and organ-system)
BIOL 215 Basic Human Anatomy* 4
BIOL 315 Developmental Anatomy* 4
BIOL 350 Plant Physiology* 4
BIOL 381–382 Cell Biology and Laboratory* 3–4
BIOL 437 General Microbiology* 4
BIOL 455–456 Animal Physiology and Laboratory* 4
BIOL 506 Human Molecular Genetics
BIOL 509–584 Molecular Biology and Applications 3–4

and Laboratory*
BIOL 515 Molecular Genetics 3
BIOL 516 Molecular Biology of Cancer 3
BIOL 533 Medical Microbiology 3
BIOL 537–565 Immunobiology and Laboratory* 3–4
BIOL 540 Biotechnology 3
BIOL 544–546 Principles of Virology and Laboratory* 3–4
BIOL 559 Endocrinology 3
BIOL 566–567 Developmental Biology and Laboratory 4
BIOL 569 Cellular Neurobiology 3

Free Electives
Sufficient additional credits to bring the total to 124.
Total 124

SPECIAL REGULATION FOR BIOLOGY MAJORS
Time Limit: All biology courses applied toward graduation must be completed within 10 years from the time the first biology course was completed.

BIOLOGY MINOR
If you are pursuing a major other than biology, you may earn a minor in biology by completing each of the following courses with a grade of C or better and earning at least 10 credits as resident credit at IPFW:

Course Number and Title Credits
BIOL 117 Principles of Ecology and Evolution 4
BIOL 119 Principles of Structure and Function 4
BIOL 217 Intermediate Ecology 3
BIOL 218 Genetics and Molecular Biology 4
BIOL 219 Principles of Functional Biology 3

Total 18

The research certificate is described under Arts and Sciences in Part 3 of this Bulletin.
