International Studies Certificate: Yes - 16; No - 6;

1. Comment on each of the following units of the class. Focus especially on the lectures or other class activities during that unit.

D. Media and Globalization (Dr. Carr):

- 1-Needed more lecture, was curious about your opinion on the subject. More focus on the news and how it works.
- 2-Dr. Carr's approach while different really challenged the students and the presentations allowed for growth outside the comfort zone.
- 3-I really liked the discussions we had in class and thought they were very helpful in learning the material. I think the quizzes were a bit unnecessary though.
- 4-Wonderful material and I loved that the students got to lead the discussion.
- 5-I really liked the class led discussions. I thought I would hate it at first even though I love the material, but it was just great.
- 6-Material in section was interesting and relevant but, a horrible way of presenting. Professor's way of teaching was very lacking and quizzes were absurd, created more stress with "opportunity to fail" with a couple bad grades on quizzes.
- 7-It was not bad but there wasn't enough interaction from the teacher.
- 8-It was iffy when I heard the structure of this section but it was so much fun and very educational.
- 9-He needs to allow other people to speak that aren't the same people repeatedly.
- 10-Totally discussion-based lecture. I wished the professor talked a little more than students.
- 11-Organization was complicated. Loved the material covered - relevant.
- 12-Loved the structure.
- 13-He understands the material. The quizzes(sic) after every reading were to(sic) much for those of us with higher-up classes.
- 14-No real lecture but an interesting class format. The readings and quizzes(sic) were brutal.
- 16-Did not find this area to(sic) appealing.
- 17-Despite hating those quizzes, they were effective for comprehension. I liked how the students led.
- 18-Did not like the quizzes.
- 19-Too much work, way too different than others, felt out of sync.
- 20-Great.
- 21-Strange setup to his section. I didn't really like it all that much.
- 22-Mediocre.
- 23-Ugh.
- 24-Knowledgeable, understanding.
- 25-Good.
- 26-OK.
- 27-Good.
- 28-Was unusual having the class do most of the talking.
