

BIOL119 – PRINCIPLES OF STRUCTURE AND FUNCTION

Lab Schedule - Spring 2012

Instructor: Dr. Marshall (marshallj@ipfw.edu)

All laboratory exercises have a worksheet which will be turned in for a grade. Worksheets are available on Blackboard and it is your responsibility to print them prior to and bring them to lab.

Date	Laboratory Topic	Points	Due Date
March 12/13	Animal Histology	10	March 12/13
March 19/20	Fetal Pig Dissection I	10	March 19/20
March 26/27	Fetal Pig Dissection II	10	March 26/27
April 2/3	Animal Development	10	April 2/3
April 9/10	Plant Structure	10	April 9/10
April 16/17	Plant Reproduction	10	April 16/17
April 23/24	Quiz	40	

Absences: Full participation in the laboratory portions of this course is expected. Make-up labs cannot be given. Thus, if you miss a lab, you will not receive any of the points for that lab. The exceptions are students who have an excused absence (illness with doctor's signature, participation in a University-sponsored event, death of an immediate family member) or who have made prior arrangements with me.

Plagiarism: Plagiarism is copying someone else's work and turning it in as your own. Often, students complete their written assignments together and consequently use similar wording in answering the questions. Sometimes this is unavoidable. If it is obvious that all the members of the group are turning in identical written assignments, a warning will be given. Subsequently, a grade of 0 will be awarded to all the members of the group.
